

The Ocean

it's cozy here in the middle
of the ocean & i wonder whether
you breathe with documental consis-
tency in albany as well as
clinging to the backs of dolphins
who speak to each other through two
language levels simultaneously &
the question which pops into my mind
literally like toast is do they
speak in linear fashion as with
question preceding answer & conclusion
following premise all with the proper
irrational mix that character-
izes all species relatively
unaware of their telepathic
capabilities it's
cozy here if you have a dolphin or
other cetacean to talk to other-
wise watch out
